

Kelvin Water Technologies Pvt. Ltd.

[Water , Wastewater and Solid Waste Management Company]

Wastewater Treatment Plant (WWTP)

A Wastewater Treatment Plant is a facility in which a combination of various processes (e.g., Physical, chemical and biological) are used to treat industrial wastewater and remove pollutants.

Water Treatment Plant (WTP)

A typical water treatment plant is designed to meet boiler feed water/steam purity and a ZLD requirement. It is designed to remove odors, color and turbidity as well as bacteria and other contaminants

Waste Management System (WMS)

Waste Management is viewed as part of a generation, collection and disposal system that reveals its relationship to other parts of the system is examined in the light of producing more sustainable practice.

Wastewater Treatment Plant - WWTP

Dissolved Air Flotation (DAF)

Sewage Treatment Plant (STP)

Effluent Treatment Plant (ETP)

Common Effluent Treatment Plant

Zero Liquid Discharge Plant

Rainwater Harvesting System

Water Treatment Plant - WTP

Industrial & Commercial RO Plant

Water Softener

Demineralisation Plant

Ultrafiltration Plant/ UF Plant

Nanofiltration Plant

Organic & Solid Waste Management Products

Natural In-Vessel Composter

Automatic Thermo Composter

Composter with Curing System

Industrial Shredder

Baling Press Machine

Trommel Screen

Medical Waste Incinerator
